

Careers reporting that builds itself.

Shine is free for your students. When they use it, your Gatsby Benchmark evidence accumulates in the background, ready to export the moment you need it.

- **Gatsby Benchmark coverage**
Coverage across all eight benchmarks at a glance, updated as students engage.
- **One-click evidence export**
CSV or PDF evidence packs for Compass+, governors and Ofsted. No manual collation.
- **Cohort insight**
Clarity and confidence shifts, application activity and destinations, across your cohort.
- **Your own feedback questions**
Ask your students how your careers service could improve, and read the answers.

Essentials

Benchmark coverage +
evidence export

Standard

Adds cohort analytics +
feedback questions

Multi-site / Trust

Adds cross-site view +
named account manager

Built privacy-first

Students link to an institution only if they choose to, and can unlink at any time. Institutions see aggregated cohort data only, never an individual student's record.
